Summary

Full Stack Java Developer with 1.5+ year of industry experience building scalable REST APIs, microservices and role-based web and mobile applications using Java, Spring Boot, React, MySQL and PostgreSQL. Currently working in Azure DevOps CI/CD, deployment automation and environment troubleshooting at Tietoevry. Familiar with Agile/Scrum setup. Seeking a Java Backend / Full Stack Developer role.

Skills

Programming — Java | core | JavaScript | SQL
Backend — Spring Boot | Spring MVC | REST APIs | Microservices | API Integration | OOP
DevOps & CICD — Azure DevOps | CI/CD Concepts | Azure Fundamentals | Linux (Basic) | Shell scripting
Frontend — ReactJS | ReactNative | Bootstrap | HTML | CSS
Databases — MySQL | PostgreSQL
AWS -Cloud — EC2 | RDS | S3 | IAM
Tools — Git | GitHub | Postman | Swagger | IntelliJ | Jira | Branching Strategies | Code Reviews
AI Tools — GitHub Copilot | Anthropic Claude | ChatGPT | Cursor

Internship Experience

Software product Developer, *Tietoevery Fintech India.ltd* 05/2026 – 10/2026
- **Project: Credit Lending Origination (CLO) – Loan Application Processing** Pune
- Contribute to the development and maintenance of loan application processing features in an enterprise lending platform.
- Enhance application functionality and support lending workflow improvements and issue resolution.
- Configure and maintain Azure DevOps build and release pipelines for automated application deployments.
- Set up Azure Virtual Machines and application environments, troubleshooting deployment issues using Azure CLI and PowerShell.

Associate Software Engineer and Internship Training 09/2025 – 03/2026
- **Project: Retail Billing Mobile Application** Pune
- Developed backend services using Java, Spring Boot, and PostgreSQL with rolebased access control.
- Designed RESTful APIs for billing operations and application workflows.
- Implemented business logic and database integration to support reliable billing transactions.
- Worked with Git-based workflows and CI/CD build and deployment processes.

Software Developer Intern, *Zidio Technology* 08/2025 – 10/2025
Project: Recruitment Portal Banglore (Remote)
- Developed a full-stack recruitment portal using Java, Spring Boot, ReactJS, and MySQL.
- Implemented role-based authentication and authorization for Admin, Recruiter, and users.

- Designed and developed interactive dashboards, RESTful APIs, and CRUD operations to streamline recruitment workflows.

Software Developer Intern, *AI Tech Solutions* 01/2025 – 07/2025
Project 1: Doctor Door Step Service (DrDSS) Pune

- Developed backend services using Java and Spring Boot, following Clean Architecture and Microservices principles.
- Designed and implemented REST APIs for application functionality and service integration.
- Worked with database integration, JWT-based authentication, and API documentation using Swagger.

Project 2: MicroFinance Application

- Developed backend services for a MicroFinance mobile application using Java and Spring Boot, integrated with a Flutter frontend.
- Implemented loan management and record management modules.
- Performed REST API integration and testing using Postman.

Education

BE in Computer Engineering, *Keystone School of Engineering* 2022 – 2026

HSC, *R.R. Shinde Jr College* 2020 – 2022

SSC, *Sadhana School* 2014 – 2020

Projects

DocIntell, *AI-Powered Document Intelligence*
An AI-based system for document processing and semantic search. Built ASP.NET backend services with PostgreSQL and pgvector for document retrieval.

Hoolistem, *Online Learning Platform*
An e-learning platform for teachers to sell lectures and students to access learning materials

UrbanCompany, *On-Demand Service Booking Platform*
A platform connecting customers with home service professionals.

- Developed service discovery, booking, and customer interaction features.

Uniquet, *Clothing Manufacturer & Retailer Platform*
A platform connecting clothing manufacturers and retailers.

- Implemented product management and manufacturer-retailer workflows.

Study Room Application
E-learning application with progress tracking and content suggestion.

Achievements

Runner-up DIPEX National Level Hackathon

InnoHack Hackathon Healthcare Application

Certifications

- SQL Basics
- Spring MVC Architecture
- REST API Development
- ReactJS Certification
- Azure DevOps Basic
- SpringBoot Certification
